In many ways, Denver, Colorado, is the epicenter of the Rocky Mountain region and highlights all that is unique about the area — from the natural beauty of the mountains and the wide expanse of the plains to the sophisticated cultural environment and widely-recognized restaurants to the abundant production of oil and natural gas.

The lawyers in Dickie McCamey's Denver office have lived in Denver and the Rocky Mountain region for years and have a deep understanding and appreciation for its heritage, qualities and people. The Denver office, opened in October 2017, has a particular focus on oil and gas and other energy law. Our deep rooted connection to — and understanding of — the region provides our clients with a level of legal work that is unparalleled. As the Denver office grows, the firm will continue to focus on that ingrained connection to our community.
