Hollidaysburg, PA 16648-2044

The practice of the Hollidaysburg office is one of general civil litigation, with concentrations in medical professional liability, healthcare law, premises litigation, and motor vehicle litigation. Its attorneys have also served as local

counsel in regional and national litigation, where knowledge of the local courts and potential jury populations can

provide a decisive edge in significant cases.

Our attorneys are committed to working with their clients to obtain the best possible results in any legal matter or litigation. Although the attorneys' jury trial experience is extensive, they are also quite comfortable utilizing a variety of alternative dispute resolution mechanisms, including summary jury trials, arbitration, and mediation. The best way to solve a problem may be as unique as the problem itself.
