Navigating Medicare Compliance Issues

Reputations are built on experience and results. Since its inception in 2001, the Dickie McCamey (DMC) Medicare Compliance Group has earned a national reputation as a recognized leader and innovator in the Medicare Compliance industry.

The DMC Medicare Compliance Group has built our reputation through the skilled handling of complex Medicare issues on behalf of a diverse client base. Our group of attorneys, legal professionals, and medical professionals provide insurance carriers, self-insured entities, third-party administrators, and a host of other clients with a legal based Medicare compliance service that facilitates the resolution of claims and ensures our clients are protected with respect to all Medicare Set-Aside and Medicare compliance issues.

The members of our team have devoted their careers to becoming and maintaining their status as subject matter leaders in an ever-changing Medicare compliance landscape. Through our continued growth as professionals and maintaining our presence as an industry leader, we continue to achieve exemplary results in claims, ranging from workers' compensation, general liability, and Federal Employer's Liability Act (FELA) to Longshore/Harbor and Defense Base Act claims.

The attorneys in our Group have been retained to serve as National Medicare Counsel, Regional Medicare Counsel, and Advisory Medicare Counsel for clients throughout the country. In these roles, we serve as a strong voice for our clients throughout all phases of the Medicare Secondary Payer (MSP) process.

Members of our Group are also frequently called upon to share their knowledge and perspectives on complex Medicare compliance matters with insurance carriers, self-insured businesses, law firms, and other professional organizations. Additionally, our attorneys regularly partner with colleagues in our workers' compensation, general liability/insurance, railroad, transportation, product liability, and medical malpractice groups to offer all of our firm's clients insight and experience that is unique in the MSP industry.
